

## SOME HELPFUL TIPS FOR USING THE BIBLE STUDY CURRICULUM

You may access the downloadable files in two ways:

1. From God Cares' website, click the "Resources" menu and select "Free Bible Study Offer"
2. By going to the website; logging into your account, and accessing your "Downloads"

### Preparing to use this curriculum:

It is highly recommended that you view the "Curriculum Introductory Video" before using this curriculum. In it, you will find several helpful tips on sharing these lessons effectively.

### Printing:

1. Each of the seven chapters have a "Lesson Overview" page. You may want to read this overview from your computer screen instead of printing it out (saving ink).
2. The overview page and the teacher's notes have been prepared in booklet form. The intent is to print the lesson double sided and then fold in half. You will need to flip pages on the "short edge".
  - a. If you cannot print double sided, then print single sided, cut pages in half and sort by page order.
3. Each lesson comes with a two-sided page for sharing with your audience. There are two sizes for you to choose from. For the smaller ½ page size, print pages 5 and 6 double sided, flipping on the "short edge". For the larger, full page size, print pages 7 and 8 double sided, flipping on the "short edge".
4. Once you have printed your original, you may want to ask your church office or the activity director at the nursing home to help you by running copies for the residents.
5. The *God Cares for You* ministry book excerpt requires 8 ½ X 14 (legal size) paper. If you do not have this size paper, you may want to read it from your computer screen. (Again, flip double sided on short edge.)
  - a. We do recommend you purchase a copy of this book for use with lesson chapters 2-7.
6. All pages will print well in gray scale (black ink only) to save on color ink costs.
